

Jack Yazzie

EDUCATION

University of Denver

Full Stack Coding Bootcamp

FEBRUARY 2024 - AUGUST 2024

Gained practical experience in web design and database management, participated in Agile team projects, and developed websites using JavaScript, CSS, SQL, GitHub, MongoDB, and React.

Rocky Mountain College of Art and Design

Bachelor's Degree of Fine Art, Game Art Major

AUGUST 2011 - MAY 2017

Developed expertise in public presentations and collaborative projects, demonstrating strong teamwork and time management skills. Enhanced artistic abilities through advanced training in cutting-edge software and hardware.

DEVELOPER PROJECT EXPERIENCE

Trash Pandas: A Mental Health Adventure

Primary Language: JavaScript

Project Manager for a team of four designers who used agile programming methodologies with vscode and github to make a mental health website. Primarily used javascript with node.js, react, and built using vite. This site used a google api, dotenv, graphql, and was published using render with an apollo database.

Portfolio Website

Primary Language: JavaScript

Created professional website using JavaScript, Node.js, React, and a small amount of HTML and css for structure. Focused on front-end work using a vite build, and published using netlify.

Blog Beats: Musical Social Media Website

Primary Language: JavaScript

Worked with a group of developers to create a social media website using dotenv, node.js and express.js (to create a RESTful API), handlebars.js for the pages, nodemon, sequelize, pg, eslint, PostgreSQL, and prettier for styling.

Social Network API

Primary Language: JavaScript

Created a database for a social media website using mongodb, nosql, node.js, express, and tested with insomnia C.R.U.D. operations.

SKILLS

Troubleshooting: Expert in programming diagnostics and Git management.

Technical Language

Proficiencies: Skilled in JavaScript, Node.js, Render, CSS, HTML, MySQL, Git, Microsoft Office.

APIs & Databases:

Proficient in Insomnia for database operations.

Gist: Proficient in creating short gist tutorials.

Digital Media: Experienced in image/video editing and 3D modeling (Maya, ZBrush, Blender).

CERTIFICATIONS/ TRAINING

Agile Development

Techniques: Trained in Agile methodologies to enhance project management and software development.

Full Stack Development:

Comprehensive training in front-end/back-end development.

Web Development:

Self-taught expertise in HTML.

CPR/First Aid Certified.

CONTACT:

Nest Cast: Weather Dashboard

Primary Language: HTML

Worked with a team to create a website that combined Open Weather API and National Park Service API to predict the weather in the upcoming 5 days at national parks and monuments in all 50 states. This polished and simple project was done with a minimal amount of javascript, css, and html code. Published using github pages.

Employee Payroll Tracker

Primary Language: SQL

Primarily used MySQL to create a database to track employees and their salaries, using a javascript framework, inquirer for the prompts, and JSON to access local storage in order to keep the data client-side.

Note Taker

Primary Language: JavaScript

Used an express server to create a note taking website that utilized json for local storage to save any notes taken on the client side.

Task Board

Primary Language: JavaScript

A simple kanban board made with javascript to sort tasks by dragging and dropping them, and color code them based on due date. Published using github pages.

Professional README File Generator

Primary Language: JavaScript

A javascript program using node.js and inquirer to prompt the user with a list of questions to create a professional readme file.

WORK EXPERIENCE

DS Bus Lines

Dispatcher/Admin - Commerce City, CO

MAY 2023 - PRESENT

Facilitated seamless communication among school bus drivers, school administrators, parents, and the mechanic team, ensuring efficient operations and safety compliance. Excelled in maintaining a comprehensive overview while managing intricate details. Actively contributed to fostering an inclusive and diverse community within a dynamic startup environment.

North Park Transportation

Admin Assist II/Biller - Denver, CO

AUGUST 2022 - MAY 2023

Efficiently managed the creation, rating, and digital entry of bills, utilizing a deep understanding of tariffs to provide accurate quotes to customers through email and phone interactions. Demonstrated exceptional attention to detail through rigorous data entry and customer service, often during extended hours

WSI (Warehouse Specialists)

Office Clerk/Dispatcher - Denver, CO

JANUARY - AUGUST 2022

Served as the pivotal communication link between customers, warehouse staff, drivers, and corporate offices. Oversaw the meticulous organization, filing, and scanning of paperwork alongside robust data entry tasks. Coordinated load schedules, dispatched drivers, and handled supply procurement.
